

Rack Power Distribution and Rack Systems Worldwide

NEW!

Featuring:
NetShelter Rack PDU Advanced

apc.com

Life Is On Schneider Electric

Introduction

Through our APC brand, Schneider Electric offers a wide array of standardized rack power distribution units (PDUs) designed to increase manageability and efficiency in your data center.

NEW!

NetShelter Rack PDU Advanced

A rack PDU with an industry-first 4-in-1 outlet design that works for the most common types of plugs, with models able to deliver even more power. Designed for the high-density power needs of service providers, large enterprises, and medium-to-large data centers.

NetShelter Rack PDUs

Our standard PDUs with industry-leading reliability, manageability, and security. Ideal for small and medium sized businesses, small-to-medium data centers, and edge computing.

Basic Rack PDUs

- Reliable power distribution

Metered Rack PDUs

- Real-time monitoring of connected loads
- User-defined alarms warn about potential circuit overloads to prevent power loss to critical equipment

Switched Rack PDUs

- Metered functionality, plus individual outlet control to power cycle outlets
- Manage on/off equipment sequencing
- Control through EcoStruxure™ IT Expert*, EcoStruxure Data Center Expert, or web IP

Metered-by-Outlet Rack PDUs

- Greater power management
- Individual outlet-level power metering
- User-resettable energy (kW) logs for capacity planning and energy-efficiency initiatives

*8000 Series or 9000 Series models only.

We understand your overall challenges:

- You need to deploy equipment quickly
- You must keep up with increasing power densities
- You cannot afford downtime

The complexity of power distribution gets in the way.

In addition, cyber security is imperative, and sustainability and energy efficiency are more important than ever before.

Plan for an always-changing future with NetShelter Rack PDU Advanced:

- **Deploy equipment faster** due to simpler planning and configuration (a unique 4-in-1 outlet accommodates the most common plug types)
- **Easily handle high-density loads** with up to 48 outlets and 50% more power than other APC PDUs
- **Avoid downtime** with advanced redundancy features

Learn more about the advanced offer:

Our Sustainable Promise:

Efficiency. Transparency. Expertise.

Sustainability has always been at the core of Schneider Electric's purpose, culture, and business. We promise efficiency, transparency, and expertise to help our customers meet their sustainability goals.

Green Premium™

Our Green Premium™ program delivers data on our products, empowering you with the information you need to **Strategize**, **Digitize**, and **Decarbonize**.

Best-in-class companies follow a three-step approach to deliver results in line with climate ambition.

Sustainability in Rack PDUs

All APC NetShelter Rack PDUs offer Green Premium transparency. Our intelligent PDUs go a leap further by actually enabling you to reduce Scope 1, Scope 2, and Scope 3 emissions in four primary ways:

1 Reducing the overall embodied carbon of the rPDU itself

2 Tracking energy use in real time and historically, and at different granularities—a critical step to making improvements and reporting to stakeholders

3 Identifying energy wasters, like ghost servers or vampire loads, allowing you to turn them off onsite or remotely

4 Enabling remote monitoring and management, which reduces emissions and inefficiencies related to travel and onsite support

Sustainable capability by APC NetShelter Rack PDU type

Overall Carbon Reduction	●●●●●	●●●●	●●●	●●	●
	Metered-by-Outlet with Switching	Switched	Metered-by-Outlet	Metered	Basic

Benefits of our industry-first 4-in-1 outlet:

- Simplify IT planning—no need to select different types of PDUs for different types of equipment
- Be ready for future expansion without needing to know what types of outlets you'll need
- Avoid delays and unplanned costs if plug requirements change mid-project—use the PDUs you already ordered
- Be flexible for whatever the future brings to your data center

Acts as any of these outlet types:

NetShelter Rack PDU Advanced Local Display

Color user-interactive display for local access

USB for FW upgrades

Network:
- Dual network 10/100/Gigabit & 10/100
- Redundant Ethernet
- Cascading up to 32 PDUs
- Display power sharing

Dual sensor ports

NetShelter Rack PDU Advanced

(Only sold in North America and Europe)

A rack PDU with an industry-first 4-in-1 outlet design that works for the most common types of plugs, with models able to deliver even more power.

Additional options

Configurable Rack PDUs:

All options above are available as configure-to-order with U.S. leadtime of **6-7 weeks and minimum order quantity of 30 units** when configuring to order these options:

Input plug type | Input plug length | Color

Visit apc.com/pdu-advanced to request your CTO or ETO PDU.

Engineer-to-Order Rack PDUs:

Have a large order and not finding what you are looking for? Engineer-to-order your Rack PDU with best-in-class APC NetShelter™ Rack PDU Advanced features and functionality! Request your engineer-to-order PDU solution today.

TAA compliant:

These PDUs meet the requirements of the Trade Agreement Act (TAA) and are substantially transformed in the U.S.A. They are also compliant with the GSA (General Services Administration) schedules.

*IEC Input Plug options listed are IP44 plug types

** 4-in-1 outlet acts as C13/C15/C19/C21 outlet; for more information, see Pages 6 – 7

Selecting and Configuring APC Rack PDUs

Use the Rack PDU Selector to help you choose from:

- Family type
- Output voltage
- Mount style (vertical or horizontal)
- Input plug
- Localized price

apc.com/tools/selector/pdu

NetShelter Metered Rack PDUs

Metered Rack PDUs provide real-time remote monitoring of connected loads. User-defined alarms warn of potential circuit overloads before critical IT failures occur.

What is metered on Metered & Switched Rack PDUs?

- **Device**: Power and energy
- **Phase**: Current,* power, and voltage
- **Internal circuit breaker (bank)**: Current*
- **Outlet**: Current, power, energy (AP8600 & AP8400 Series only)

*AP7000 series monitors current per phase and breaker only.

Why do we meter?

- **Device:** Rack level capacity change, planning, and efficiency calculations
- **Phase:** Balance loads between phases to protect against tripping upstream branch circuit breakers
- **Internal circuit breaker (bank):** Protect against tripping internal circuit breakers
- **Outlet:** Detailed capacity change, equipment efficiency, and trends

Rack PDU Management

APC Intelligent Rack PDUs provide remote power utilization data to help make informed power decisions and lower total cost of ownership.

EcoStruxure™ Innovation At Every Level

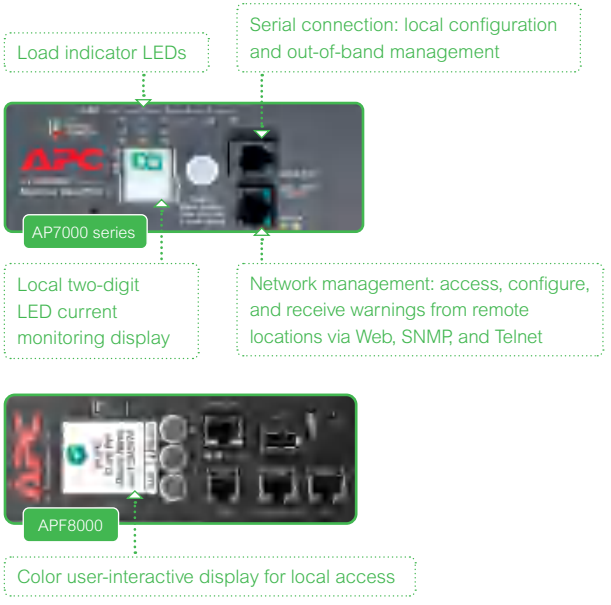

- Manage on your own via web browser, Telnet (CLI), SNMP, and Redfish.
- Schneider Electric manage for you with EcoStruxure™ Monitoring & Dispatch Services. Learn more at EcoStruxureIT.com.

ITE SWITCHING CONTROL**

Innovative Outlet Design

Industry first hybrid PDU outlets are UL certified hybrid C13/C15 and C19/C21 PDU outlets.***

- Compatible with C14 and C20 power cords
- Future-proofed for new C16 and C22 cords
- These outlets provide 120C (vs 70C) outlet rating for true 60C performance at 100% load

Integration with EcoStruxure IT Expert

APC Intelligent Rack PDUs, when combined with EcoStruxure IT Expert make efficient use of your time with cloud based monitoring and help provide an instant overview and remote control** of data center operations.

EcoStruxure™ Innovation At Every Level

Pre-load the power today!

Save time, money, and waste by having your Rack PDUs pre-installed amongst other accessories in your rack with Local Edge Configurator!

End user? Contact your sales rep or locate a partner and request an integrated rack today!

Visit “How to buy” on apc.com to locate a sales rep or partner.

Partner or interested in becoming a partner? Access the configurator through our Partner Portal for your unique partner experience: designportal.apc.com/login.htm.

Local Edge Configurator

- Accessible on mobile, tablet, and laptop browsers: designportal.apc.com
- Configure a rack with a few accessories or a complete Micro Data Center solution
- Search and add from a refreshed catalog of rack mountable equipment
- Drag and drop equipment into the rack
- Validate compatibility, UPS, weight
- Save a template for future use
- Get rack assembly and shipping reports

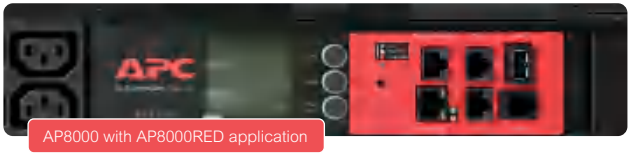

Now have your rack pre-integrated!

Color Code Your PDUs Now!

Simple and easy to use solution for color coding power sources in a rack. Includes label for display, top of PDU, and input cord.

Description	APC SKU
AP8000 series Red Label Kit for 10 PDUs	AP8000RED
AP8000 series Blue Label Kit for 10 PDUs	AP8000BLU

230	2U	32 A		AP4424A

Reliability

- **Switching time <10ms**
- **Field replaceable network management card (NMC)** to minimize downtime disruption in the event of a failure
- **Temperature/humidity sensor support** for environmental monitoring in your data center or network closet
- **Dual input power cords** for seamless power switching
- **2 years standard warranty, 5 years extended warranty**

Agility

- **32 rack ATS network port sharing** to manage from one IP address to simplify and speed deployment while saving the cost
- **Flash upgradable** to enable future product enhancement via network firmware upgrade
- **Wi-fi support via APC USB device** for cable-less installation and setup

Manageability

- **Gigabit Ethernet support** for future-proofed faster communication up to 1 Gbps over network; this built-in network connectivty allows remote management via Web UI, CLI, SNMP, or EcoStruxure Data Center Expert
- **Color LCD display** for ease of access
- **LCES1 mini NMC3 network management card** for enhanced security, remote monitoring, and control of individual rack ATS by connecting it directly to network
- **EcoStruxure IT ready** for seamless integration including alarm notification alerts and control of critical IT infrastructure from anywhere in the event of an issue

Make Power Distribution Easy

The APC Easy Rack PDU is an easy-to-install, easy-to-use, easy-to-customize rack mount PDU that provides reliable power distribution to the equipment in the rack and with the functionality of monitoring and control.

Easy Basic Rack PDUs

- Reliable power distribution

Easy Metered Rack PDUs

- Real-time remote monitoring of connected leads
- User-defined alarms warn IT and data center managers of potential circuit overloads to prevent accidental power loss to critical equipment

Easy Switched Rack PDUs

- Metered functionality
- Switch on/off the connected power load remotely

Easy Metered-by-Outlet Rack PDUs

- Individual outlet-level power metering
- User resettable energy (kWh) logs for capacity planning and efficiency initiatives energy

Easy for installation

- Ultra-light weight thanks to aluminum housing
- Support both toolless mounting and bracket mounting
- Built-in input cord with Industrial connector for vertical PDU
- Low-profile in depth, more convenience for equipment installation

Easy for operation and maintenance

- User-friendly and simple Web interface and LCD screen
- Support network port, easy for data communication
- Field-replaceable control module, easy for maintenance

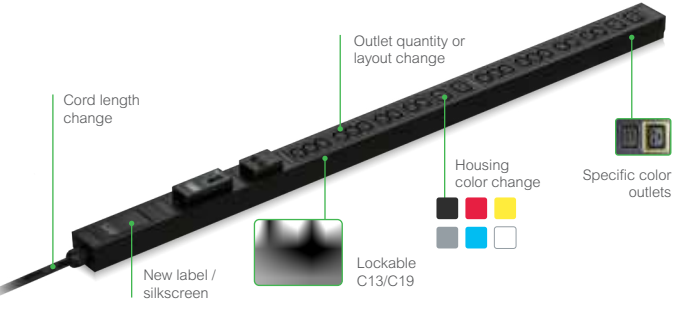

Typical applications

- Small and medium data centers and computer rooms
- Colocation and large enterprise data centers
- Manufacturing facilities
- Telecommunication
- Commercial buildings
- Healthcare
- Transportation

Custom Easy Rack PDUs

Pre-configured or custom Easy Rack PDU designs are available to suit unique project and end-user requirements.

For requests and more details, email: easycustomracks@se.com

Easy Basic Rack PDUs

(Only sold outside of North America and Japan)

APC Easy Basic Rack PDUs provide reliable rack power distribution via a single input with multiple output receptacles and distribute power from low amperage single-phase circuits to higher-power 3-phase solutions.

Voltage	Mounting U-space	Nominal voltage	Region	Input circuit	Nominal power	Input plug type	Output receptacles	Cord length	APC SKU

EcoStruxure Micro Data Centers

A micro data center is a configurable, secure, self-contained enclosure with the capability for all essential IT components, often employing converged or hyperconverged infrastructure, along with management and monitoring software devices. It also contains all required supporting racks, UPSs, power, and cooling.

Our solutions provide the reliability, resiliency, and security of a datacenter in a single enclosure that can be distributed in any edge environment.

Get Certainty and Simplicity

- Physically secure
- Simple to deploy
- Remotely manageable

Solutions for any Environment	
S-Series	Micro Data Center for IT Environments
C-Series	Micro Data Center for Office and Commercial Environments
R-Series	Micro Data Center for Harsh Environments

NetBotz Security and Monitoring

Security and Environmental Monitoring for Network Closets to Data Centers

NBWL0755

NBPD0165

NBRK0750

NBRK0250

Surveillance:

- Leverage NetBotz and IP camera technology to monitor IT assets remotely
- EcoStruxure™ IT Expert and the NetBotz Surveillance package allow multiple site camera views on a single page

Environmental Monitoring:

- Wide range of wired and wireless sensor support to monitor the health of your IT assets
- Temperature, humidity, leak, door, smoke, vibration, dew point, airflow, dry contact, 4-20mA, and 0-5V

Management Capabilities:

- Alarming allows alerts, multiple notification methods, scheduling, graph and video attachments, escalation
- Integrate with EcoStruxure IT Expert to manage multiple NetBotz devices through a single interface and view historical alarms and sensor data

**Note: NetBotz Access Control requires adapter kit for NetShelter CX*

EcoStruxure™
Innovation At Every Level

Flexible Access Control for NetShelter SX, SV, CS, and Wall-mount Racks

Configure proximity cards for access or control access via web browser for remote management and notification.

APC Rack Access Control Options

125 kHz Access Control

- Stand alone appliance for two handles to plug into (i.e. one appliance per rack)
- Leverages the NetBotz 250
- Central authentication via RADIUS
- Remote syslog capability

NBACS125

13.56 MHz Access Control

- Stand alone appliance for two handles to plug into (i.e. one appliance per rack)
- Leverages the NetBotz 250
- Central authentication via RADIUS
- Remote syslog capability

NBACS1356

Rack Access Pods

- Rack access pod that is daisy-chained off a NetBotz 750 or 755 appliance
- Basement or 19” mounting
- Supports NetShelter SX, SV, and CX

Extended warranties*

APC offers extended warranties that provide a continuation of coverage beyond the original factory warranty period. This service extends the security and protection provided by your factory warranty and ensures that your product will be repaired or replaced if necessary, at no additional charge. Extended warranties are available for purchase in one-year increments.

This service is available for all Rack PDUs, Rack ATSs, Rack LCD consoles, and KVM switches, and includes:

- Technical support from product-specific support engineers to assist with questions or concerns
- Cross shipment of parts or replacement product — no waiting for your critical equipment

Add an extended warranty to your shopping cart on apc.com for new purchases or purchase an extended warranty for your existing product.

*Check with your local sales representative for extended warranty services available.
